(57) ABSTRACT

A package for instant food and a method of manufacturing the same are disclosed. The package for instant food comprises a main-package for packing instant food therein in a sealed state, and a sub-package formed integrally with the main-package, defining a separate sealed space at a side of the main-package, the sub-package for holding a wet washcloth in the sealed space. According to the method of manufacturing the package for instant food, a user is allowed to wipe his/her fingers with the wet washcloths right after eating the instant food, it can satisfy the user's needs for cleanliness and solve sanitary problem.
